Fragment Series

Fragment is a series of bowls and lids produced from the discarded offcuts of the natural stone industry. The original shape, color and texture of each segment of these rough pieces determines the look and function of the result. Ranging in diameter from 3" to 9.875", Fragment vessels offer a range of uses, from a vide-poche to a fruit bowl.

Dimensions: Various sizes available

As Shown: Natural stone offcuts

Lead Time: 3-4 weeks
