

FORT STANDARD

Stacked Stone Vessel - Hexagon to Triangle

Part of the “Qualities of Material” collection, the Stacked Stone Vessels explore lamination, pushing past the conventional limits and applications of stone as a material. Precision cut, stacked and laminated rings of marble make up the thin walls of these architecturally inspired vessels. Each Limited Edition piece is signed and dated by the designer Gregory Buntain.

Dimensions: 10.5”W x 10.5”D x 19”H

As Shown: Marble

Lead Time: Limited Edition
