

FORT STANDARD

Two Tier Strata Coffee Table

The two tier structure of the Strata Coffee Table is composed of two 3/8" thick precision milled metal plates and solid machined legs with integrated leveling feet. The lower tier provides open storage for displaying coffee table books and objects while maintaining a clear usable top surface. The design allows for the table to be assembled on site if desired. *Custom materials, dimensions and finishes available.*

Dimensions: 36"W x 36"D x 17"H
