Chaise

With its many uses, the Chaise can serve well as an outdoor deckchair, a sun-lounger, or as part of an elegant, indoor living room. Exposing the strength of two thin materials, the strategically bent profile carries the tired travelers' body on a thin sheet of steel with a comfortable, 10 ounce layer of leather. The sheet metal is rolled to allow one's body to comfortably lounge upon a floating plane. *Custom materials, dimensions and finishes available.*

Dimensions: 21"W x 55.5"D x 40.50"H

Seat Height: 15"

As Shown: Blackened steel, Vegetable tanned leather

Lead Time: 7-8 weeks
