Silt Quilt

Silt Blanket uses traditional Bojagi techniques: sewing together a combination of transparent and opaque fabrics and enclosing the seams to create a light sensitive blanket. Pojagi or Bojagi is a technique in which fabric is patchworked together using closed seams to create one layer of reversible fabric.

Care: Avoid direct sun to maintain color intensity. To remove fold lines or wrinkles, steam with an iron, or spritz with water and allow to dry flat. I would recommend getting the quilt professionally cleaned. In between cleanings, quilts may be vacuumed to remove any surface dirt and dust.

Material: 100% Cotton

Dimensions: 92"W x 92"L

Lead Time: 8-10 Weeks
