Doughnut Table

The Grain Cork Collection is a project that grew from many years of research and development, and as a fascination with the material itself. The Cork Collection is designed to honor this extraordinary material first and foremost. Cork is the outer bark of the cork oak tree that grows in Mediterranean climates and can live for up to 200 years. It is hand-harvested every nine years without harming the tree making it a rapidly renewable material and a powerful carbon sink.
