

## THOMAS YANG STUDIO

## Rocking Rock Stool

The Rocking Stool pulls you in by the river stone, which I carried from Trout Brook and carved to fit the centuries old reclaimed barn wood from northern Quebec. Referencing the timber framing method of Eastern Asian craft referred to as ishibatate (standing on stonves), this love letter to materials is also a transfer of knowledge.

Standard Materials:  
Wood, River Stone

Shown As:  
Pine, Maple, River Stone

Standard Dimensions:  
12.5" dia x 17"H
